

## Humphrey Information Technology ENTERprises Web Development Pricing

Web development pricing can vary depending on the complexity of graphics, page layout or animation requirements. Specifically, graphics creation or manipulation can significantly effect the price of web development. Of course, we will sit down with you to determine your web requirements in order to give you an agreed-upon bottom line before any work is started.

As a general rule, however, if you supply any company-specific graphics, you should be able to estimate your development costs using the following guidelines:
